How to Convert SWF files (flash) to MP4 using the VLC player!

- From the top menu, choose *Media*.
- Click *Convert / Save*.
- The *File* tab is now selected. Click *Add Files* on the right side.
- Select the SWF flash file you would like to convert.
- Click *Convert / Save* at the bottom.
- In the *Profile* field, choose the format you would like to convert to: MP4, MPEG, WMV, etc.
- At the destination file field, choose a directory and file name for the converted file.
- Click *Start*.
- Now you'll see the SWF played in VLC. Once the playback will complete, the converted file will be in the output directory.
